INTRODUCTION

Started coding in 9th grade because I wanted to build things and solve problems. Built solutions for real clients through code and fell in love with product development. Contributed to open-source healthcare infrastructure and currently going after GSoC 2026. I care about the impact my contributions make and always looking to join a team where my work will actually matter and play a role in improving someone's life.

EXPERIENCE

Software Developer — Jul 2025 – Feb 2026
Devkind — *Melbourne, AU (Remote)*

- Built a plug & play, highly customizable Swell checkout app by integrating Cloudflare KV + Easyblocks into an existing Next.js storefront checkout so anyone could customize and use it without ever touching code.
- Collapsed the 3-step checkout into a single page flow, resulting 35% decrease in checkout to purchase time.
- Sole dev on 6+ client projects end-to-end: designing, building and deploying within tight deadlines.
- Onboarded an intern, helped assign tasks, did code reviews and provided prompt guidance.

Developer Intern — Mar 2025 – Jun 2025
Devkind — *Melbourne, AU (Remote)*

- Revamped an old site from scratch with measurable improvements in core web vitals, organic traffic and conversion rates.
- Built a shared prompt database for the team, standardized AI prompting and cut API token costs by 30%.
- Automated marketing workflows and leads generation using N8N + Slack, saving 10+ hours of manual work per week.

Freelance Developer — Nov 2024 – Apr 2025
Samiullah Arif Enterprises (SAE) — *Sukkur, PK (Remote)*

- Replaced pen-and-paper invoicing with a Django + Next.js system that has processed 20M+ PKR in transactions.
- Shipped 4+ new features in under 30 days based on direct client feedback, iterating fast on a live product.

EDUCATION

Intermediate: Islamia Government Science College, Sukkur — Aug 2024 – Expected 2026
Computer Science — HSC-I: A (78.55%)

Matriculation: APWA Excellent World School, Sukkur — Apr 2014 – Aug 2024
Computer Science — SSC-II: A (78.09%)

SKILLS

Languages	JavaScript, TypeScript, Python, SQL
Frameworks	React, Next.js, Django
UI	ChakraUI, Ant Design, TailwindCSS
Tools	N8N, Docker, Supabase, Stripe

EXTRA-CURRICULAR

- **Enterprise Challenge Pakistan:** Regional 4th place, pitched a gig marketplace for skilled trades with a POC, business and scaling strategy and user acquisition plan.
- **Academic:** 1st position in Annual Examination 2022, 2nd position in 2020–21.

CURRENTLY

- **GSoC 2026 applicant:** actively contributing to Open Health Care Network, focused on shipping features, improvements and bug fixes.
- **National Powerlifting Competition:** competing in the sub-59kg class.
